AN OCEAN HORROR.

Thirteen Passengers on the Leona Lose Their Lives.

Fire Breaks Out in the Steerage and the Poor Emigrants are at Its Mercy.

NEW YORK, May 10.—The Mallory line steamship Leona, which sailed from this port Saturday afternoon, returned at a late hour last night with thirteen corpses of men, women and children aboard. They had been burned and suffocated on Saturday night. Ten of them were steerage passengers, one was the ship's butcher and two were stewards.

The dead are: R. Catlino, Miss I. Valick, Bridget Sullivan, Mrs. C. Guzza, Miss Guzza, Marie Mades, Sophia Schwartz, Hanna Solomonson, two children, unidentified; H. Hartman, aged twenty-seven, New York, butcher; Alfred Howey, aged forty, steward; Alfred Lang, aged nineteen, New York, steward.

Whether they died from smoke or flames is a matter of conjecture. It is certain that their bodies were charred beyond recognition before they were pulled out from the wrecked steerage quarters. That was after the flames had been fought under control and the Leona had headed again for New York. While the fiercest part of the fighting was going on her cabin passengers, to the number of 100, watched the performance from the deck of the City of Augusta, of the same line, which had passed at an opportune moment.

An incipient mutiny among the Italian stockers, who fought to desert the vessel and had to be beaten back to their posts, added to the vivid coloring of the tragic voyage.

About 1 o'clock Sunday morning when the Leona was off Delaware Breakwater, a fierce, swift fire broke out in the forward cargo compartment, underneath the steerage, in which twenty-three passengers bound for Galveston, Texas, were asleep. They had arrived from Europe.

It was a gruesome sight on board the Mallory line steamer Leona, early today. Thirteen dead bodies, blackened by fire and smoke, were lying in the steamer's steerage, and men and women were on the deck, looking as though they had passed through an awful ordeal. Nobody was allowed to either leave or board the vessel until after the coroner had arrived to view the bodies and give permission for their removal. Coroner Harber arrived about 2:20 this morning at the pier and found Charles H. Mallory, one of the owners of the vessel, in conversation with Captain Wilder in the latter's cabin. Accompanied by Mr. Mallory and the captain, Coroner Hoeber went to the steerage and viewed the charred bodies. Then he gave permission for their removal. The coroner told Captain Wilder that as a matter of form he would be compelled to have him placed under arrest. He was immediately placed in custody of Mallory, who was instructed to produce the captain when the inquest is held. The witnesses were told to be at the coroner's office at noon today.

The thirteen bodies were placed in nine of the pine boxes, some of the bodies being those of children and others charred and burned to about half their natural size. The bodies were taken to the morgue, where they will remain to await identification. Those that cannot be identified will be buried in the potter's field.

Samuel Schillichraut was one of the passengers in the steerage of the Leona. He came here from Hungary about a month ago and was on his way to Columbus, Texas. He has a wife and six children in his native country whom he expected to bring over in a short time. He had $450 with him, with which he was going to start in a small business in Columbus. He lost everything he had, both money and clothing. He does not speak English, but through an interpreter he said: "The crew made no effort to help the passengers and none of us were awakened by them. They simply took care of themselves and left us to our fate. A great many of the lives might have been saved of the crew had done anything to help the smothering passengers."

Mr. Schillichraut said the general impression was that the fire was caused by a lighted match dropped by one of the crew in the cargo. He declares that he saw a number of the crew smoking and that they were very careless in throwing away their matches. The officers, he said, made no attempt to stop the smoking among the crew, which was very dangerous considering the inflammable nature of the cargo in the forward hold. Along shore today it was thought strange that the fire was not discovered earlier. It must have been smoldering several days and yet neither the captain nor any of the officers knew anything about it until the vessel was filled with smoke.

MASKED ROBBERS

Enter the Home of a Catholic Priest Near South Bend.

Resistance Offered, but the Robbers Ransack the House and Make Their Escape.

SOUTH BEND, Ind., May 10.—Two masked robbers at 1 o'clock this morning entered the residence of Rev. Joseph Flacho, the Catholic priest at Dyer, Ind., and ransacked the house.

The priest and cook were awakened and seeing probable resistance the robbers used an iron bar striking the cook on the head inflicting dangerous wounds.

The priest attempted to shoot but his revolver failed to work and he was roughly handled.

Bloodhounds are on the trail of the burglars and they may be captured.

THE COURTS.

One Divorce Suit Ended and Another One Begun.

A Damage Case on Trial—Will Filed—News Notes in Legal Circles.

The divorce case of Hannah Cummings against Lucius Cummings is on trial before Judge Dawson in the superior court.

The will of Mary Kochs is probated. She leaves her estate to her children, and names Henry Berschinger guardian and executor.

The suit of Mary C. Mellinger against the city is on trial in the circuit court. The plaintiff sues to recover $3,500 for personal injuries, by reason of a defect in the street.

In the circuit court this morning Judge O'Rourke granted Adaline Smith a divorce from Christian Smith. Plaintiff was given the custody of the children.

Constable Fred Roemke went to Middletown this morning to make arrest for cruelty to animals. When he got there, however, he found that the man he wanted had skipped.

George F. Allen and Ora L. Middaugh, Louis Scherer and Rick Fiegel, Arthur Brown and Rosa Frisby have been licensed to wed.

The following telegram from Bluffton appears in today's Cincinnati Enquirer: "A divorce case was filed in the circuit court on a change of venue from Allen county. The principals in the suit are Col. C. W. Stiles, formerly landlord of the Warren hotel, and Mrs. Maude Stites, his wife. The colonel is more than sixty years of age. While in Warren he suddenly disappeared about a year ago, went to Fort Wayne and married a young woman aged twenty-five years. They moved to Fort Wayne and lived together two months, then Mrs. Stites filed suit for divorce and demanded $5,000 alimony. The colonel has filed a counter charge, alleging that he was duped by his wife's pretention to respectability."

KILLED HERSELF

And the Coroner is Now Trying to Identify Her.

A Note Signed "Titania" Requested the Coroner to Have Her Body Cremated—No Clew to Identity.

NEW YORK, May 10.—"Never mind who I am or why this is done. It will hardly ever be found out, I hope not. TITANIA."

This note written on a telegraph blank, was found on the body of a woman taken from the park reservoir, off Ninety-sixth street, today. It was undoubtedly a case of suicide, but it is clad in mystery and the woman took every precaution to conceal her identity. The body was that of a woman about thirty years old, five feet six inches in height, of fine proportions and a face of striking beauty, set off by magnificent black hair. Some of her underclothing had the stamp of "Schlesinger & Mayer, Chicago," upon it. Not another scrap of writing was found on her that would disclose her identity. Besides the note given above, there was in her pocket a letter addressed to the coroner, asking that her body be cremated; $50 she said would be found in her left shoe. The money was not found in the shoe, but there was a postscript to the letter which read as follows:

"I trust all will be done right. I'm sorry, cannot delay this matter. Money not received; will be sent to the coroner."

The disposition of the ashes is provided for in a mysterious fashion. A torn paper was enclosed with the direction that her ashes be turned over to the person who should present the other fragment. The papers were turned over to the coroner and the woman's body sent to the morgue.

Major Will Wilson is rusticating at James Lake near Angola, and incidentally enjoying the first fishing experience of his life. Like all novices he purchased an elaborate outfit of fishing tackle, with which he is having phenomenal success. The first day out he secured thirteen fine fish, one of them, a fine pike, weighing eighteen pounds, another pike eleven pounds, and a black bass weighing four pounds. He also caught a Steuben county "cold" from jumping into the lake after a disappearing cork, and acquired a beautiful shade of sunburn in consequence of the loss of his umbrella. Notwithstanding the major's misfortunes and mishaps a few of his warm personal friends have received substantial proof of his newly acquired skill in pursuing the art of Izak Walton by receiving fine messes of fish by recent express, (sent C. O. D.) His friends wish for him success in securing the medal offered by the fishing club, of which he is a guest, for the largest fish caught during the season, and believe him now to be a very prominent candidate.

THE BELL WINS.

The Last Berliner Patent is Legal.

The Suit Practically Involves the System of Telephony and Makes the Bell Company the Only Owner.

WASHINGTON, May 10.—The Bell Telephone company won the case brought against it by the United States to annul the last Berliner patent. This decision has the effect of continuing the control of the telephone by the Bell company for seventeen years from the date of the last patent, which was granted in 1891. The government asked to have the patent of 1891 set aside on the grounds that the delay of thirteen years in the patent office was fraudulent and through the faults of the Bell Telephone company, and that the patent issued in 1880 covered the same ground on which the new patent was applied for in 1891. The court, in its opinion delivered by Justice Brewer, held that there was no evidence of corruption or undue influence exercised over the patent by the telephone company and that there was no evidence that the delay in the patent had been brought about by the company.

It held that whatever delay there had been was through the fault of the patent office and by no fault of the company. Justice Harlan dissented from the opinion. Justice Gray and Brown, it is announced, took no part in the case, presumably because they were interested. The court held that in order to set aside a patent the government must establish grounds of relief clear and satisfactory as it would to set aside a land patent. All other allegations of the government, besides that of delay, were overruled. This decision by the supreme court sustains the lower courts. The case has attracted wide attention because of the extensive interests involved in its settlement and the opinion of the court has been anxiously awaited.

It was claimed that the Berliner patent practically controls telephony as it has to do with both the transmission and receipt of sound, and that the delay thus secured under 1891, operated to prolong the control of this act for fifteen years beyond the time of the expiration of the Bell patent. It was also asserted that the patent was granted by the commission of patents without authority of law and that it was for the same invention for which a patent had been granted in 1880, and that the principal was therefore not new. The suit originated in the United States circuit court for the district of Massachusetts, where it was decided in favor of the United States. Upon appeal to the circuit court of appeals for the first circuit this decision was reversed and the contentions of the Berliner claimants upheld. From this opinion the United States appealed to the supreme court.

RIPE OLD AGE.

Two Veterans of the Nineteenth Century Die.

Capt. Joseph King, Who Lived 106 Years, and Mrs. Cyrus Fillmore, Who Reached Ninety-five.

TROY, N. Y., May 10.—Capt. Joseph King, who claimed that he was 106 years old last Wednesday, died at his home in Lansingburg this morning. He claimed to be of Indian descent. Captain King was the father of Stephen and Mart King, who were among the pioneers of base ball in this country.

STURGIS, Mich., May 10.—Mrs. Cyrus Fillmore, widow of the brother of ex-President Fillmore, fell from the porch of her daughter's residence yesterday and died shortly after from concussion of the brain. She was the oldest resident of the town, being over ninety-five years of age, and very wealthy.

WILL TAKE PART.

Arrangements for the Presentation of "The Creation."

The Soloists and Orchestra—A Musical Festival That Will be the Grandest Event of the City.

Arrangements are progressing nicely for the annual May festival to be given at the Masonic Temple on the 20th inst., when Haydn's sacred oratorio, "The Creation," will be rendered under the auspices of the Apollo club. The program will be directed by Prof. William Miles and the soloists will be Miss Clara Ewing Zollars, soprano; F. Knapp Safford, tenor, and Frank E. Stouder, basso. These three singers have been frequently heard in musical events here and their names are sufficient guarantee that the leading parts will be well produced. Reineke's full orchestra, with the addition of a tympani and cello from Indianapolis, will furnish the instrumentation for this occasion.

The chorus of the Apollo Musical society, from long training and careful teaching, has reached such a degree of perfection under Mr. Miles' skillful direction that it undoubtedly excels any chorus of its size to be found in the country.

Following is the list of those who will take part: Henry Deadell, C. J. Weber, A. M. Schmidt, F. K. Safford, F. E. Stouder, Louis Curdes, C. J. Scheimann, W. F. Schrader, C. F. Packard, Carrie A. Wilson, Mary Evans, D. S. Griffith, Mr. and Mrs. Sam H. Taylor, Egbert Olds, Josephine Albert, Addie Williams, Hedwig Schroy, Felix Schanz, H. B. Woolsey, W. F. Sanders, F. J. Schafer, G. L. Seabold, A. B. Weeks, Mary Murphy, Catherine Murphy, Jessie Noirciter, Mrs. T. M. Hall, Mrs. Alice Brooks, Mattie Abbot, Edith M. Browster, Sadie Dressel, Emma Ehinger, Matilda Starmer, Anna Hobrock, Madge Michaels, Augusta Rudolph, Frances Wiedemann, Anna Wiedemann, Viola Koby, Emma Etzold, Laura Schnickman, Laura Kramer, Sophie Nix, Celina Nix, Fannie and Jessie Winch, Julia Carroll Kate Huber, Carrie Mommer, Matilda Potter, Mrs. W. W. Wagoner, Ellen DeHaven, Agnes Monning, Mamie Fry, A. Lillian Schrader, L. G. Schrader, Minnie P. Smith, Mary Buckley, Mary Fry, Rosella M. Baker, Loretta A. Dittoe, Mary H. Hutzell, C. B. PEACE IN SIGHT.

Greece Ready to Lay Down Her Arms.

Turkey Agrees to Settle for $15,000,000, the Greek Fleet, the Island of Crete and a Few Other Valuable Cessions.

ATHENS, May 10.—The correspondent of the Associated Press learns on the very best authority that Greece has made a written application to the powers, through their representatives at Athens, with a view to obtaining mediation.

All the representatives have promised in their replies to use their offices, except the German minister, who has merely acknowledged the receipt of the note from the cabinet.

It is reported in official circles that Queen Olga has sent a telegram to the czar soliciting the mediation of Russia.

The porte is inclined to support the powers with a view to the facilitation of negotiation, but it declines to consent to an armistice, on the ground that this would enable Greece to reorganize her forces.

Prime Minister Ralli says that the Greek troops will be withdrawn from Crete. "The government having use of all troops possible," he said, "has decided in gradually withdrawing our army from Crete. This would also facilitate arrangements with the great powers, which have been unofficially intimated. Greece has officially notified the foreign ministers of her intention to withdraw from Crete and has demanded the admission of Greek ships within the blockade for this purpose. Greece now awaits the official offer of the great powers to make proposals of peace between her and Turkey, if they please, but will not ask for it. An official note from the powers will probably be presented at once and all depends on its terms. The report in the papers of an armistice is not true, but an armistice will probably be agreed upon if peace negotiations are opened."

VIENNA, May 10.—It is reported here that Turkey's terms of peace with Greece include the payment of an indemnity of $15,000,000, a rearrangement of the Greek frontier, the annulling of the treaties favoring the Greeks, the cession of the Greek fleet to Turkey and the settlement of the Cretan question.

CONSTANTINOPLE, May 10.—The Turkish commander at Janina telegraphs that the Greek forces at Kamarina have been routed by three battalions of Turkish troops, who occupied Kamarina. Later the Greeks gathered in a church on the heights above the village, when they fired on the Turks, who eventually took the church by assault, killing many of the Greeks and capturing some prisoners. The remainder of the Greeks retired to the bridge of Across Georgis, where they made a determined stand, but were finally routed by the Turks.

Edhem Pasha, the Turkish commander in Thessaly, has telegraphed from Volostino to the ministry of war the details of the occupation of Volo by the Turkish troops, the institution of Ottoman administration there, the withdrawal of the Greek fleet from that port and the seizure of large quantities of munitions of war. He has requested that the Turkish customs officers be sent to Volo to insure a continuance of business at that port.

The chicken case set for hearing in the mayor's court today calls up the decision of the supreme court, which decided that poultry running at large is wild game and the property owner upon whom they trespass has a perfect right to kill them. No man has a right to let his chickens run at large and bother his neighbors. The supreme court some day will decide that the air over in other fellow's lot is his exclusive property and cannot be used by any other person without his consent. But come to think about it, the biggest nuisance there is is to have somebody's old speckled hen scratch out your garden and wallow in your flower beds.

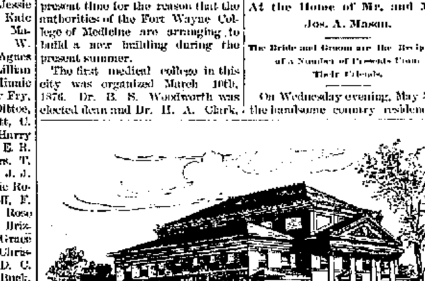

TO SCIENCE

Will a New and Beautiful Building be Dedicated.

The Fort Wayne College of Medicine, Its Past, Present and Future—The First Medical Institution.

The history of medical education and of medical colleges in this city is of interest to our citizens at the present time for the reason that the authorities of the Fort Wayne College of Medicine are arranging to build a new building during the present summer.

The first medical college in this city was organized March 10th, 1876. Dr. B. S. Woodworth was elected dean and Dr. H. A. Clark, secretary. This college held two sessions. The name of the college was the Medical College of Fort Wayne. Of the resident physicians who were members of the faculty were Drs. W. H. Myers, C. B. Stemen, H. V. Swerlngen and A. E. Van Buskirk. Drs. J. L. Gilbert, of Kendallville, Ind., and H. D. Wood, of Angola, Ind., were also professors in the college. At the close of the second session it was found that the charter was imperfect, while the authority was given to confer the degree of doctor of medicine, there was no authority to hold and control property. A new college was organized and a new charter obtained under the name of "The Fort Wayne Medical College." Hon. Joseph K. Edgerton was made president of the board of trustees, Dr. B. S. Woodworth, dean, and C. B. Stemen, secretary. This college continued for one year when it was abandoned.

THE NEW MEDICAL COLLEGE BUILDING.

In 1879 "The Fort Wayne College of Medicine" was organized, Prof. W. H. Gabrecht, M. D., was elected dean of the faculty; Dr. Joseph R. Beck, secretary, and Dr. C. B. Stemen, registrar. The board of trustees consisted of Hon. Charles McCulloch, Henry Monning, A. C. Trentman, R. C. Bell and Montgomery Hamilton. Hon. Charles McCulloch was elected president of the board, a position which he has continuously filled to the present time. Hon. Henry Monning was a faithful member to the time of his death, and Hon. Allen Zollars was elected to fill the vacancy. A. C. Trentman resigned and Hon. D. N. Foster was elected to fill his place. Three of the members of the board have served for eighteen years. But three of the original members of the faculty are yet living and doing active work in the college, viz.: Drs. W. P. Whery, Geo. W. McCaskey and C. B. Stemen. The present faculty consists of twenty-six members and all are residents of the city except Dr. J. L. Gilbert, of Kendallville, who has for many years been teaching in the different medical colleges of this city.

It is quite different, now from what it was in the early days of medical teaching in this city. Then there was considerable bickering and quarreling among the members of the profession, but today there is perfect harmony and good feeling among the members of the profession, both in and out of the faculty.

This college was the second one to ask the American Medical College association to adopt a four years' graded course of instruction before conferring the degree of doctor of medicine. The college is recognized by every state board of health in this country. There have been 214 students who have received the degree of doctor of medicine. Quite a number of these are able teachers in this and other colleges.

MR. EVERSOLE EXPLAINS

Why the Mutual Life of Indiana Went Into the Hands of a Receiver.

O. P. Eversole, general agent of the Mutual Life insurance company of Indiana, in explanation of the recent action taken by the company in having a receiver appointed, says that it becomes necessary, in order to protect the interests of every policy holder, to place it temporarily in the hands of a receiver (the Union Trust company) in order that the court may settle the question as to the legal rights of the company under its charter. Mr. Eversole goes further and says the company was organized in 1882, under the laws of 1865; that in 1893 the legislature repealed the act of 1865, and provided that all companies complying with the new act should continue in business; that the question had been raised before as to whether the act of 1893 did not repeal the act of 1865, and, in order to dispose of that question, the legislature passed the act of 1893; that the question now arises in regard to the point that some doubt does exist as to the legality of the original act, because it is claimed it violated that part of the constitution of the state providing that legislation, by special act, shall create no private corporation, except banking. Mr. Eversole claims that the company is today in first-class condition: that its assets are over $150,000 and has between $70,000 and $80,000 of cash on hand; the balance being invested in first mortgage real estate security.

RURAL WEDDING

At the House of Mr. and Mrs. Jos. A. Mason.

The Bride and Groom are the Recipients of a Number of Presents from Their Friends.

On Wednesday evening, May 5, at the handsome country residence of Mr. and Mrs. Joseph A. Mason, of Wayne township, in the presence of a large number of friends, occurred the marriage of their daughter, Maud, to Aaron Shive.

At 8 o'clock, to the strains of a beautiful wedding march, rendered by Miss Georgia Earley, of Dayton, Ohio, the bridal party entered the handsomely decorated and brilliantly lighted parlors, the bride attended by her sister, Miss Florence, the groom by Frank Cannison, and occupied the place in front of the floral decoration prepared for the occasion.

The bride wore a handsome dress of cream liberty crepe silk with trimmings of mousseline de soie and carried a beautiful bouquet of carnations and ferns. The bridesmaid wore cream Henrietta with mousseline de soie trimmings. The ceremony was performed by the Rev. Mr. Ballinger, assisted by the Rev. Mr. Johnson. After the ceremony the guests were served ice cream, cake and fruits.

The following is a list of guests from whom presents were received: Messrs. and Mesdames Adolph Schilling, china platter; Baker, china cups and saucers; Geo. HELD IT IN HIS HAND.

Synod of Missouri Has Been Abundantly Blessed.

Sermons Preached by Prof. Crull and Rev. Wambsgans at the Semi-Centennial of the Lutherans.

The semi-centennial anniversary of the founding of the Lutheran synod of Missouri was celebrated yesterday by the congregations of the synod in this city. In the morning each one of the churches held services appropriate to the occasion and in the afternoon and evening union meetings were held at the St. Paul's Lutheran church on Barr street. Prof. A. Crull, of Concordia college, delivered an English sermon in the afternoon and Rev. Wambsgans, of the Emanuel church, spoke in German at the evening service.

Both the union meetings were largely attended and the sermons delivered were full of interest and instruction. The speakers are among the best pulpit orators of the Lutherans in the United States and their discourses yesterday were of a high order of merit.

A SENTINEL representative attended the union meeting held in the afternoon and heard Prof. Crull. He is a man of scholarly ability, able, eloquent and forcible, and held his large audience interested listeners throughout the delivery of his sermon. It is understood the same interested attention was given to Rev. Wambsgans at the evening service.

Prof. Crull took as the text for his sermon the passage from the book of Samuel, "Hitherto hath the Lord helped us." The words, he said, were those used by the prophet at the dedication of a temple. It has been the keynote of every congregation which has erected an edifice for the worship of the Lord since that time and it applies with particular appropriateness to the history of the German Lutheran synod in the celebration of the fiftieth anniversary of its organization.

He gave a brief history of the founding of the synod and a review of the principles of faith laid down by it for the government of the congregations—in matters of faith and conscience perfect obedience to God, in other things perfect liberty. He spoke of the difference of the principles of faith of the Missouri synod from those of the other synods and how God had been with the former in the preservation of the purity of its doctrines despite the efforts of its enemies and false friends.

The growth of the synod, the professor said, had been most remarkable, composed as it is now of thirteen districts and extending into every state of the union. Starting fifty years ago with twelve congregations it now has 1,916 congregations and 380,000 members.

God has been with the synod since the day it came into existence fifty years ago. He showered divine blessings on it constantly and Lutherans ought never to loose sight of the Great Architect who had helped them to build this monument. They should give Him the honor and glory and join with the prophet in the words, "Hitherto hath the Lord helped us," for during the fifty years of the history of the synod He had held it in His hands and abundantly blessed it.

Rev. Carl Wilhelm Ferdinand Walther, who established a church at St. Louis, which became recognized as the headquarters of the people of his faith in the west, was recognized as a great theologian, and became the father, guide and spiritual advisor of thousands of Lutherans on this continent. His life was so inseparably connected with the history of the synod that touching references were made to it by Professor Crull, as he also did to some of the other pioneers and great leaders of the Lutheran church.

MAN WANTED.

A Fortune Awaits Charles T. Monnett at Detroit.

He Formerly Resided in This City—Letter of Inquiry Received by the Superintendent of Police.

This morning Supt. Gorsline received a letter from the circuit judge of Detroit in which enquiry is made for the whereabouts of Chas. Thomas Monnett, who formerly resided here. Monnett came to Fort Wayne in 1873 and lived here it is supposed, until recently. The letter states that a relative of Monnett has just died, leaving him an inheritance that amounts to a nice fortune.

BETHANY'S ANNIVERSARY.

Wonderful Work Accomplished in Three Years.

Yesterday morning, at Bethany Presbyterian church, the pastor, Rev. George E. Davies, preached an anniversary sermon, the occasion being the completion of the third year of his pastorate. The sermon was in the nature of a summing up of the work done in the past and the outlook for future advancement.

Bethany is Rev. Davies' first charge and Rev. Davies is Bethany's first pastor. He came here from the McCormick university at Chicago, immediately after his graduation and the work he has accomplished has been simply marvelous. From a struggling band meeting in a small inconvenient place of worship the church has grown to a strong, vigorous membership, meeting in a beautiful new edifice erected at a cost of $5,000.

One of the results of Rev. Davies' special efforts is the number of country members from the territory immediately west of the city who have united themselves with this live little church. Bethany has a splendid field to work upon, situated as it is in a thickly settled part of the city, at a great distance from any other church, and the country contiguous thereto being the best in Allen county, and it bids fair, under Rev. Davies' leadership, to become, in time, one of the strong churches of Fort Wayne.

BURNS WERE FATAL.

Little Hulda Bobley Relieved From Suffering by Death.

She Was Severely Scalded Four Weeks Ago—Death of the Venerable William Woebbeking—Other Deaths.

Hulda, daughter of Mr. and Mrs. George J. Bobley, of 78 Swinney avenue, died last night from injuries received four weeks ago. The child fell in a tub of scalding water, receiving burns that proved fatal after much suffering. Deceased was aged two years, six months and four days. The funeral will be held at 2 p. m. Tuesday from the residence, Rev. Wambsgans officiating.

Susan A., wife of Joseph Pfleger, died Saturday afternoon of pneumonia, after a brief illness. Deceased was seventy-two years old. She was the wife of the well known expressman. The funeral will be held tomorrow at 2 o'clock from the residence.

Daisy, the daughter of Mr. and Mrs. Thomas Kavanaugh, died of epilepsy yesterday at the home for feeble minded youth. She was twenty-one years of age. The funeral took place from the home at 3 o'clock this afternoon.

William Henry Woebbeking died Saturday evening at the home of his son, Conrad Woebbeking, of 196 Broadway, from infirmities of old age. He had long been a resident of the city and was highly respected by all. Mr. Woebbeking was born in Hanover, Germany, in 1808, and was, therefore, nearly eighty-nine years of age. He emigrated to America in 1846 and settled on a farm in Adams county, near Decatur. He lived there until 1870, when he removed to this city and had lived here ever since. His wife died about five or six years ago. The surviving children are Conrad Woebbeking, of this city; Henry, of Woodburn; Mrs. Christian Matsch and Mrs. Fred Rolf, of this city. The funeral will be held tomorrow afternoon at 1:30 o'clock from the house and at 2 o'clock from Emanuel's church.

The funeral of Mrs. Agnes Poetsch will be held tomorrow at 1:30 p. m. from the house, 32 Pritchard street, and at 2 o'clock from Emanuel's church.

HAVE WHEELS.

And the Wheels Belong to Other People, Who Now Walk.

Thieves Clean a Hat Rack of Its Contents—Pocketbook Lost—Notes in Police Court.

William Pape reported to the police authorities today that a bicycle was stolen from him last Saturday night. Mrs. Taylor, residing at No. 79 Holman street, reports that a wheel was stolen from her yesterday. It is strange that more wheels are not stolen for it is a very easy matter for a thief to mount a bicycle and ride away. Superintendent Gorsline cautions people to be more careful.

Thieves entered the hallway at 188 West Berry street last night and cleaned a hat rack of its contents. Two overcoats and two hats are missing.

William O'Hearn reports the loss of a pocketbook containing railroad passes and bank checks.

A SUNDAY DANCE

Suddenly Checked by the Appearance of Police.

Kennedy's Road House a Bad Place and Will be Under the Eyes of the Law—Houses of Ill Fame Visited.

The police court this morning had a decided scarlet tinge as a result of a streak of morality which thrilled the police force last Saturday night. Three houses of ill fame were visited. One of these was the joint at Nos. 12 and 14 Lafayette street, another was Fannie Shoup's at 50 Chicago street, and the third was the notorious Moriarity road house, near Lindenwood cemetery. The road house is now run by Phil Kennedy, who, it appears, is trying to keep up the reputation that the former proprietor made of it. The three raids contributed a collection of seven females of the variety that violate the ten commandments and nine men, all giving fictitious names in court. Fines of $5 and costs were assessed in each case, and most of the party went to jail. When the officers reached the Moriarity roadhouse they found a dance in full progress, and it was then 2 o'clock in the morning. The crowd was of the tough order. Hereafter the place will be under the watchful eye of the law. The proprietor was fined $10 and costs.

An owl social and entertainment will be given at the Wayne street M. E. church on Thursday evening.

POWDER.

—*not heaping* spoonfuls.

base ball in this city began to be discussed, THE SENTINEL said that there would probably be no need of agitating the matter now as a higher power would step in and solve it without any interference on the part of man, because it had rained on Easter Sunday and, according to an old saying, it would rain for the seven succeeding Sundays.

And, sure enough, up to date, anyhow, this has proven to be the case. It rained a week ago Sunday and no game was played. Yesterday the day dawned bright and clear and remained so until noon when a rain began falling and came in torrents at just about the time the base ball game was to have been begun in the afternoon, and so the Wheeling and the Fort Wayne clubs did not cross bats on the ball field yesterday.

The All-wise Providence has a way sometimes of settling these vexed questions in a decisive manner and when He chooses to step in and stop Sunday games all men, no matter how great base ball cranks they may be, must yield obedience, and kicking on their part will not do any good either, for there is no appeal from His decree.

The Easter prophecy in regard to rain will extend over next Sunday, when a game of base ball is advertised to be played in this city and it remains to be seen whether a higher power will step in and prevent it.

After that the Fort Wayne club will leave the city to play elsewhere and there will be no Sunday games here until later in the season.

Has Done Good Work.

The German Lutheran synod of Missouri, an account of the semi-centennial exercises of which we give in our local columns today, is the strongest among the sixty-two synods of the Lutheran church in America and was organized at a time when the teachings of that great denomination were almost unknown in the western states.

It supports nine educational institutions and is doing great religious work throughout the middle west among those who are inclined to follow the teachings of Dr. Luther. The synod has two seminaries for the education of ministers and two for the education of teachers. One of the oldest of these institutions for learning is the Concordia college in this city, which is attended by a large number of students, with a corps of teachers taking rank with the most efficient in the country.

The synod also conducts a number of gymnasiums, the Walther college in St. Louis, a publishing house where its own Bibles, hymnals and other church and school books are printed, and it also publishes six German and three English synodical periodicals. Missions for emigrants are maintained at New York, Baltimore, Bremen and Hamburg. Various asylums have also been established for the care of the orphans, the sick, the dumb and the aged. In fact, it is doing everything in the line of religious, educational and charitable work that befits such a great organization.

Every congregation is expected to take loving care of all its poor. In addition nineteen charitable institutions have been built by various local communities, orphan asylums being most numerous among those. A school for deaf mutes is maintained, which, perhaps, was the first one in the country to instruct the pupils to utter articulate speech, thus enabling them to converse with their fellow men without the use of the sign language.

The history of this Lutheran body is interesting. When it was organized there were less than twenty ministers. They were all earnest workers, however, in the cause of Christ. Some of these men had left the German fatherland because they were not permitted to serve their Lord according to the public confessions of the Lutheran church. The state across the ocean meddled with affairs of doctrine and church discipline and had corrupted the church. So these men, together with several hundred families, decided to seek refuge in this free republic and to build up a true Lutheran church, conforming to the original church of the reformation in the days of Luther.

The work begun by less than a score of energetic and zealous ministers in 1847 has reached astounding proportions to date. According to the latest statistical report compiled by officers of the synod the number has now swollen to 1,500, including the professors at the various institutions of learning, that of the congregations ministered to 2,500, inclusive of the mission posts. There are 380,000 communicant members affiliated with this body in this country and Canada, and among the cities in the nation few of them have more Lutherans than has Fort Wayne.

Mothers, Be sure and use "Mrs. Winslow's Soothing Syrup" for your children while cutting teeth. It is the best remedy of all. MaySoodEw

Saturday's game of base ball at Lakeside park between the locals and Wheeling was a peculiar one in many respects. The score ran higher than that of any game played on the home grounds since the opening of the season. The game was full of good plays at times and then the scene would change and rocky plays would be on tap for a while. Darby was to have pitched but at the last moment Minnehan was ordered to go in the box in his place. Minnehan did not come up to the expectation of his many admirers, being a trifle wild. Through his wildness, some errors and a couple hits, the Nailers tallied four runs in the first ere they were retired. This took all the enthusiasm out of the crowd. The locals in the second to a degree restored confidence, when they succeeded in making three runs. A fine double play in the third by the Colts when but one man was out and the bases full, still further increased the confidence of the spectators, and when at the close of the first half of the sixth inning the score stood five runs each, the fans were sure the game would be ours. But how soon their hopes were dashed. The Nailers came to bat and before they were through five of them came tripping over the home plate. However the Colts were full of vinegar and in their half of the seventh by some heavy slugging and errors by Wheeling made nine runs. This was thought to be a safe lead but the Nailers got their spunk up and in the ninth closed up the gap and tied the score. Fort Wayne tried hard to tally in the tenth inning but failed, although Haggerty made a three-base hit. Wheeling had better luck and, after two men were out, by safe hitting, secured the necessary run, and it was all over. The score:

Fort Wayne..0 3 0 1 0 1 9 1 0 0—15
Wheeling....4 1 0 0 0 5 1 0 4 1—16

Hits—Fort Wayne, 17; Wheeling, 14. Errors—Fort Wayne, 6; Wheeling, 5. Earned runs—Fort Wayne, 7; Wheeling, 3. Two-base hits—Kihm, Haggerty, Robinson, Messitt. Three-base hits—Houser, Haggerty, Curtis, Lyons. Stolen bases—Minnehan. First base on balls—Off Minnehan, 6; off Baker, 4; off Easton, 5. Hit by pitched ball—By Minnehan, 1. Struck out—By Minnehan, 2. Passed balls—Donovan, Messitt. Double plays—Cooke to McKevitt to Robinson. Batteries—Fort Wayne, Minnehan and Donovan; Wheeling, Baker, Easton and Messitt. Umpire—Weller. Time of game—2:50.

DIRECTORS MEET.

President Powers issued a call for the directors to meet at Springfield today, to transact important business. Manager Strobel of the Toledo team wants permission to use his $500 guarantee to build new grounds closer to the city. Manager Billy Meyer did not attend but telegraphed his consent, believing that the expenditure of the amount of money necessary to erect new grounds will be a sufficient guarantee that Toledo will stay in it to the finish.

NOTHING IN IT.

Manager Meyer was shown the following special to the Chicago Inter-Ocean of yesterday: "Phil Knoll will probably play with Fort Wayne the balance of the season. President Meyer this evening accepted Knoll's terms and ordered him to report immediately. Knoll played here last season and later with Kansas City. It is understood he will manage the team." "There is absolutely nothing in it at all," said the genial manager.

INTER-STATE SATURDAY.

DAYTON, Ohio, May 10.—Dayton lost Saturday's game to New Castle, as will be seen by the following score:

INTER-STATE GAMES YESTERDAY.

TOLEDO, May 10th.—Toledo shut Youngstown out yesterday. Hoffmeister of Youngstown made five bad errors, and the visitors played like schoolboys. Score:

Toledo.........0 0 0 8 0 0 7 0 2—17
Youngstown..0 0 0 0 0 0 0 0 0— 0

Base Hits—Toledo, 20; Youngstown, 2. Errors—Toledo, 0; Youngstown, 9. Batteries—Keenan, Miller and Arthur; Brodie and Zinram. Umpire—Holden.

DAYTON, Ohio, May 10.—The game yesterday was very exciting, and well played by both sides. It was a pitchers' battle, and pleased the 2,000 spectators immensely. The score:

New Castle....0 0 0 0 1 0 0 0 0—1
Dayton.........1 0 2 0 0 0 0 0 0—3

CATARRH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effectual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher, of 2710 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use.

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free, on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

Base Hits—Dayton, 4; New Castle 6. Errors—Dayton, 2; New Castle, 2. Batteries—Ehulg and Weand; Lipp and Grallins. Umpire—O'Brien.

INTERSTATE LEAGUE.

Dayton at Fort Wayne.
Springfield at Toledo.
Youngstown at Wheeling.
New Castle at Mansfield.

NOTES.

Kihm made four hits Saturday.

The attendance was large Saturday.

Captain Cooke put up a good game at short Saturday.

Campbell took a day off Saturday and Donovan filled his place and did good work.

Dayton will be at Lakeside park today, tomorrow and Wednesday. They are playing good ball.

Houser, who played left field Saturday, did some heavy stick work, being credited with three hits.

McKevitt and Kihm both hit the ball over the left field fence, but about five feet west of the foul line.

Babb will play third base today and the popular Haggerty will hold down second, while Morrissey will be given a trial in left field.

A fair attendance was out to the Centlivre grounds yesterday to witness the game advertised between Wheeling and the home club, but rain interfered.

The line-up for today will be as follows: Haggerty, 2b; Morrissey, lf; Robinson, cf; McKevitt, rf; Campbell, c; Kihm, 1b; Babb, 3b; Cooke, ss; Darby, p.

Dayton Journal: "Manager Torreyson was informed that there was betting on the grand stand and at once tried to find out if the report was true. He wishes every one to understand that no betting is allowed, and in the future every one who is caught betting will be ejected from the grounds."

BASE BALL.

Tomorrow Dayton vs. Fort Wayne. Game called at 3:30.

CALIFORNIA FOR HEALTH.

Mild Climate, Rare Medicinal Springs and Charming Scenery.

There are many conditions of the body in which a change of environment, bringing as it must a change of thoughts and of feelings, is far more valuable as a remedial agent than all the medicaments that can be prescribed. If added to this there can be secured all desirable climatic conditions, good old Mother Nature often works most wonderful cures.

California is peculiarly fitted to give all that nature can give in both these directions. To the newcomer the environment is so strange, so striking that it claims almost imperatively the undivided attention. Everywhere and all the time there is something strange or interesting to see, and the interest is kept keenly awake in response to the wonder and surprise that are constantly felt.

Of climatic conditions the invalid has a wide range from which to choose: In elevation, from about three hundred feet below sea level to six or seven thousand above; in humidity, from the moist sea breezes of thousands to the dry, invigorating air of the inland mountain ranges; in temperature, from the almost perpetual summer of the southern part of the state to the more severe, though not unpleasant, climate of the upper Sierras. Malaria is unknown except along a few of the river bottoms, and the air, even on a warm day, is peculiarly bracing, often stimulating like a draught of wine.

That it requires good judgement to determine what conditions are best goes without the saying, but backed by this judgement all that any country or any climate can do for the invalid California can do.

In addition to all this there are numerous mineral springs, many of them having marked medicinal qualities, which have already won for them a wide reputation. At some of these sanitariums have been erected, and all the conveniences of modern civilization are at hand.

There, too, one can enjoy a more healthful and varied diet than is accessible in any other locality. Fresh fruits and vegetables the year round; the pure juice of the grape, fermented or unfermented, as one may elect, an abundance of wild game, and meats that are nutritious and high flavored.

A climate where even a delicate person can, with no fear of taking cold, spend ten of the twelve months in the open air needs few accessories in the work of restoring impaired health or vitality. Great numbers of semi-invalids already go to California to escape the cold of the Eastern winters, and find to their constant surprise that a great part of a California winter is almost an exact counterpart of the balmiest days of an Eastern spring.

For rates and routes to California, and information regarding the many health and pleasure resorts, address W. G. Neimyer, Gen. Western Agent, Southern Pacific Co., 238 Clark St., Chicago. 10eod3t

Beginning today, no books will be given out at the public library until after an inventory has been taken. The building will be open until all books now out have been returned and the public is requested not to delay unnecessarily the return of such books. Inventories are usually taken once each year, but none, as yet, has been taken of the contents of the Fort Wayne library since its establishment. It is taken now so as to have the new finding list as near perfect as is possible to make it.

TO CHICAGO.

THREE HAPPY WOMEN!

Each Relieved of Periodic Pain and Backache. A Trio of Fervent Letters.

Before using Lydia E. Pinkham's Vegetable Compound, my health was gradually being undermined. I suffered untold agony from painful menstruation, backache, pain on top of my head and ovarian trouble. I concluded to try Mrs. Pinkham's Compound, and found that it was all any woman needs who suffers with painful monthly periods. It entirely cured me. MRS. GEORGIE WASS, 923 Bank St., Cincinnati, O.

For years I had suffered with painful menstruation every month. At the beginning of menstruation it was impossible for me to stand up for more than five minutes, I felt so miserable. One day a little book of Mrs. Pinkham's was thrown into my house, and I sat right down and read it. I then got some of Lydia E. Pinkham's Vegetable Compound and Liver Pills. I can heartily say that today I feel like a new woman; my monthly suffering is a thing of the past. I shall always praise the Vegetable Compound for what it has done for me. MRS. MARGARET ANDERSON, 363 Lisbon St., Lewiston, Me.

Lydia E. Pinkham's Vegetable Compound has cured me of painful menstruation and backache. The pain in my back was dreadful, and the agony I suffered during menstruation nearly drove me wild. Now this is all over, thanks to Mrs. Pinkham's medicine and advice.—MRS. CARRIE V. WILLIAMS, South Mills, N. C.

The great volume of testimony proves conclusively that Lydia E. Pinkham's Vegetable Compound is a safe, sure and almost infallible remedy in cases of irregularity, suppressed, excessive or painful monthly periods.

The jungles of Africa are not the only places in the world where a man courts death from an unseen foe. All the savages of all the barbarous nations of history have not slain one tithe of the men that have been killed by that dread assassin—consumption. One-sixth of all the deaths in the world are due to it.

Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption. It cures by going to the very root of the evil—imperfect and improper nutrition. It corrects all disorders of the digestion, makes the appetite keen and assimilation perfect. It drives out the impurities from the blood and fills it with the life-giving elements that build up the body. It is the greatest blood-maker and purifier. When you pump rich, red, healthy blood into an organ it cannot long retain disease. This is true of the lungs. New healthy tissue is built up in them and the germs of consumption are driven out. Thousands have testified to their cure by this great remedy. Druggists sell it.

Ralph Green, Esq., of Williamsburg, Callaway Co., Mo., writes: "Before I commenced your treatment I could not take a drink of water without great suffering in my stomach. I could not eat. I was fast sinking and did not weigh more than 125 pounds. To-day I weigh 157. I had five different doctors examine me, and each one treated me without doing me any good. At last I took four or five bottles of your 'Golden Medical Discovery,' and to-day am in better health than I have been for five years. Whenever I see any of my friends suffering I tell them of your medicine and advise them to write to you."

Dr. Pierce's It is better to do mending while the damage is slight, than wait until the whole structure is ready to fall. Constipation is the one, all-embracing disorder that is responsible for many other diseases. Dr. Pierce's **Pleasant** Pellets cure it. Druggists sell them. They never gripe. One little "Pellet" is a gentle laxative, and two a mild cathartic. They are tiny, sugar-coated granules. Nothing else is "just as good." A permanent cure. **Pellets.**

Health is Wealth.

BAKING POWDER

Absolutely Pure.

Celebrated for its great leavening strength and healthfulness. Assures the food against alum and all forms of adulteration common to the cheap brands.

ROYAL BAKING POWDER CO., NEW YORK.

will go to the hospital at Peru tomorrow, if able to travel.

Several of the large manufacturing firms, including the Bass works, paid their employes today.

After four or five days' illness, Christian Schneider has reported for duty at the Pittsburg blacksmith shop.

Samuel Parker, of the electric works, has returned from Hoagland, Ind., where he spent a week with relatives.

Willard Knight has returned home after spending two weeks in northern Michigan in the interest of the Electric corporation.

J. E. Turner, conductor on the Nickel Plate passenger, of Bellevue, Ohio, formerly of Fort Wayne, is in the city visiting friends.

Mrs. Charles Johnson, wife of the Pittsburg shopman, was called to Goesse today to see her brother, Owen Geary, who is quite ill.

William Donnell, of the electric works, is attending the funeral of his grandchild at Van Wert today. He went down to that city Saturday evening.

Machinist George Hess, of the electric works, has a new son at his home. The young man weighs thirteen pounds and is as handsome as he is heavy.

No freight trains passed over the west end of the Nickel Plate yesterday, a bridge at Columbia City being down to allow the passage of a steam dredge.

The venerable Thomas Walsh has resumed his duties in the Pittsburg blacksmith shop, after an absence of two or three weeks on account of an injured eye.

Thomas Hibbins returned to Chicago this morning, where he is engaged in repairing the roof of the Fourteenth street round house of the Pennsylvania company.

The retrenchment policy has struck the Toledo, St. Louis and Kansas City in earnest. All departments of the shops are to be shut down except those required to keep cars in repair.

Daniel Walker, who had been employed in the sash department of Rhinesmith & Simonson's factory for some time, has been transferred to the boiler room, vice John Lopshire, who is now night watchman at that establishment.

Charles Campton, a former Lake Shore engineer, will have charge of the engine room at the spoke and hub factory of Messrs. Spenhaner & Crim, which will begin operations this week. This is the old Winch factory, in the east end.

N. W. Thompson, superintendent of bridges and buildings for the Pennsylvania company, started out this morning on an inspection of bridges and culverts. He will travel from Crestline to Chicago on a hand car, the trip consuming about ten days.

The competitors of the Rock Island have all given notice that they will meet the action of that road in making a reduced rate from Utah points to Chicago and the Missouri river for school teachers who desire to come east for their summer vacations.

The Pennsylvania has been building some new postal cars at its shops at Meadows, N. J. in which a number of improvements have been introduced. These cars are to be run between New York and Chicago over the Pennsylvania and the Pittsburg, Fort Wayne and Chicago.

Messrs. E. A. Barnes and P. B. Bosworth, of the electric works, have received Canadian patents upon their commutator truing device, which was described in these columns some weeks ago. They also expect notice of the issuance of patents upon the same by Great Britain in a few days.

W. F. Scherer, tinner at the Pittsburg shops, made his appearance at that establishment this morning for the first time since his marriage last Wednesday. His appearance was the signal for an ear-splitting noise which the shopmen call the "anvil chorus" and which they "dish up" to all their fellow shopmen upon their return to work after being married.

Friday Roadmaster Adams, of the Wabash, had his men begin work in preparing a passing track opposite the passenger station at Peru, and it will be used to allow the fast freight train, No. 91, and others to get in and out without disturbing the passenger trains which will be standing on the two main tracks at their time. The new passing track is the western continuation of the freight house loading track and is to be connected with a new switch at the west end of the freight house.

P. E. Garrison, division master mechanic of the West Shore, has been promoted to assistant superintendent of motive power.

George Bradbury, vice-president and general manager of the Lake Erie and Western lines, has postponed his European trip until July.

T. N. Ely, chief of motive power of the Pennsylvania lines, has been elected a member of the executive board of the American Railway association.

Fifteen miles of new steel rail, weighing eighty pounds to the yard, has been distributed this week between Columbus and Springfield on the Big Four line.

Lewis Neilson, for fourteen years an assistant to Vice President Green, of the Pennsylvania, has been promoted to be chief clerk of the secretary of the Pennsylvania.

The Cincinnati, Hamilton and Dayton will spend quite a sum of money in bringing the roadbed of the division between Celina and Delphos to a higher standard.

F. A. Houston, formerly superintendent of the Indianapolis division of the Cincinnati, Hamilton and Dayton, is now superintendent of the Baltimore and Ohio lines between Cumberland and Baltimore.

President Kapp, of the Young People's Christian Endeavor association for Indiana, states that he expects five thousand will go to San Francisco from Indiana alone to the coming annual meeting of that organization.

The Chicago and Northern Pacific plan of reorganization has been prepared. It contemplates the formation of the Chicago Terminal Transfer railroad company, to acquire the property of the old company and the Chicago and Calumet railway company.

A special train on the Big Four on Wednesday carried a theatrical troup from Columbus to Cleveland, 138 miles, in 155 minutes, stop for water and a ten minutes' delay at Galion to be deducted. Much of the distance was covered at a speed of seventy miles an hour.

Charles Neilson, formerly general superintendent of the Cincinnati, Hamilton and Dayton, but for the last four years assistant postmaster general, has located in Washington and has been selected by a number of railroads to look after their business in the matter of rebates from the government.

It is said that the earnings of the Chicago and Northwestern road for the first ten months of the present year were sufficient to meet all the operating expenses and charges of the road for the year, provide for the payment of the regular dividends on preferred stock and leave enough money for a 5 per cent. dividend on the common stock.

The firemen on the Vandalia are disturbed over an order to the effect that firemen on the Michigan division will hereafter be required to clean the locomotives on which they are employed. At the roundhouse in Logansport ten locomotives are housed and two wipers employed, and the wipers are being dispensed with. Firemen on other divisions are worried lest the order may extend to them.

Negotiations are pending which will doubtless result in the establishing of faster passenger service between the east and west. It is to be established jointly by the Pennsylvania, the Vandalia, the Missouri Pacific and the Union Pacific, shortening by five hours all present schedules by any lines from New York to Denver. This fast service is proposed in both directions.

Purdue university has contracted with the Schenectady Locomotive works for an engine which will carry a steam pressure of 250 pounds and will have cylinders so arranged that it may be used as a simple or a compound. The cylinders and the saddle will be made up of different castings, and the centers will be so chosen as to allow the use of cylinders up to 30 inches in diameter. Several cylinders will be provided and these, with a suitable series of bushings, will allow for different cylinder ratios in compound work. The whole machine will thus afford facilities for dealing with conditions quite beyond the limits of present practice.

BICYCLE SKATES.

The Inventor an American and Not an Englishman.

E. L. Fields Made the First Pair Seven Years Ago—Affairs of Shop and Rail.

To E. L. Fields, a machinist in the Pittsburg shops, is due the credit of inventing the bicycle skates, which have been so generally described in the newspapers of the country during the past two or three months. Mr. Fields' skates were gotten up in 1889 and consisted of a frame similar to steel ice skates, with a wheel at the toe and heel. The front wheel was six inches in diameter and had a pneumatic tire, while the rear wheel was only three inches in diameter and had a solid rubber tire. On paved streets an expert on these skates could outrun a bicyclist, but they were not adapted to ordinary country roads. Mr. Fields was negotiating a sale of his device to a Galesburg man, when the latter died and the matter was dropped, the designs and sample pair of skates remaining in Galesburg. The article describing the skates credits the invention to a citizen of England.

BRIEF MENTION.

George Schmoll, of Crestline, was the guest of his relatives here over Sunday.

Engineer Clem, of the Grand Rapids and Indiana road, now drives a new pacing horse.

C. Habacher, painter in the Pittsburg shops, has moved to the corner of Fox and Poplar streets.

Pittsburg Engineer J. Rhinehart and Fireman T. G. Parish and Frank Wright are sick and off duty.

Henry H. Robinson, of the Pittsburg blacksmith shop, is temporarily disabled by a lame back, the result of a fall.

Charles Jocquel, machinist at the Pittsburg shops, was one of the excursionists to Rome City yesterday and he brought home a fine string of bass.

John Lynch, a tinner at the east car shops, fell off a scaffold Saturday evening and received an injury to his back, which will disable him a few days.

James Burns, who was sick, and Joseph Grothaus, who had an injured eye, have resumed their respective places in the Pittsburg blacksmith shop.

Foreman Rudolph Hilgeman, of the Wabash car repairers' force, who was taken suddenly ill a few days ago, is feeling slightly improved and

WHERE MINES GROW.

Of late years silver production has outstripped gold. A different condition of affairs exists in the now renowned Kootenai country. While silver predominates in some localities there, yet the streams have placer gold in paying quantities, and at Rossland, in the Trail district, gold is king. Copper and iron are found and coal also, at some places.

The recent development of this region and of that contiguous thereto in Washington, has been phenomenal. Mines of exceeding richness, from the grass roots down, have been opened all over the mountains; railroads have been built into and through the country; steamboat lines on the lakes and rivers have been increased and expanded, and towns sprung up as if by magic.

The country is good for rich or poor, the climate is mild and bracing, and the scenery grand beyond description.

Among the prominent mining camps are Rossland, Nelson, Ainsworth, Kaslo, Slocan, Salmon River, Cariboo and Deer Park.

The mountains are well timbered, rendering fuel cheap, and living expenses are reasonable.

Smelters are located at several points contiguous to the mines.

The year 1896 witnessed a wonderful emigration to the Kootenai country, and it will be eclipsed by the record of 1897.

The direct route to this land of gold, from the east, is via the Northern Pacific railway to Spokane, Wash., and Spokane Falls and Northern railway from that point north.

West of the Rossland region lies the Boundary Creek country—practically a continuation of the former—of very rich promise but as yet of meagre development. South of the Boundary line, in Washington, is the "Reservation" country, a land also of promise.

A full description of the Kootenai region can be obtained by sending to Chas. S. Fee, Gen. Pass. Agent, N. P. Ry., St. Paul, Minn., for their new Kootenai Folder and elaborate relief map. This is the best map published of the Kootenai. m20-tf

IN FAVOR OF COFFEE.

Checks the Waste.

A physician has said in an argument in favor of the use of coffee that it is desirable in some cases because it checks the wastes of the body. "A little thought on this subject will make clear to anyone that in a perfectly healthy body, the checking of the waste is not desirable. If the activities of the body are accompanied by destruction of tissue, that dead material should be removed from the body and any interference with this process, must be more or less injurious." The above is quoted from a famous physician in answer to the original statement. Many people may be able to drink coffee and digest it. Thousands of people cannot, as their own experience will testify. Postum Cereal Food Coffee can be digested by anyone, infant or adult, invalid or athlete. It is composed of the parts of the cereals required by nature to rebuild the gray matter in the nerve centers, and that is the reason why the famous trademark, "it makes red blood," is a statement of fact. See that the cook makes it black and rich as Mocha.

There is but one original genuine Postum Cereal Food Coffee, with hundreds of imitations sold as "just as good."
